✱

May 23, 1944

Dear Mrs. Manley:

Have received the statistics from the Elias people and am publishing same this week. Am pleased to inform you that they did a good job. They did not, however, include the team fielding averages. Please check and see if we can't have the figures on that particular department next week.

The releasing of these statistics is one of the greatest contributions Negro baseball has ever made for the benefit of the public.

Please keep behind the clubs and see that this service continues.

Sincerely yours,

Wendell
